EDUCATION

BACHELOR OF ARTS (BA)

- Rajasthan University
Jaipur

SKILLS

FRONT-END DEVELOPMENT

- HTML5
- CSS3
- JavaScript (ES6+)
- React.js
- Redux

UI/DESIGN FRAMEWORKS

- Bootstrap
- Tailwind CSS
- Material UI
- MDB Bootstrap
- Chakra UI

BACK-END DEVELOPMENT

- Node.js
- Express.js
- RESTful API
- JWT (JSON Web Tokens)

DATABASE MANAGEMENT

- MongoDB

VERSION CONTROL

- Git
- GitHub

DEPLOYMENT & CLOUD SERVICES

- Netlify / Vercel

DEVELOPMENT TOOLS

- VS Code
- Postman

PROFESSIONAL SUMMARY

Enthusiastic MERN Stack trainee currently training at GRRAS Solutions, Jaipur. Gaining hands-on experience in building web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in frontend and backend development with strong problem-solving abilities and a commitment to continuous learning.

WORK EXPERIENCE

MERN Stack Developer (1 Year Experience)

2 Oct 2024 – Present

Laxmaya Technologies Pvt Ltd, Jaipur

- Developed RESTful APIs with Express.js and optimized data management using MongoDB.
- Created responsive UIs in React.js, employing Redux for state management.
- Integrated authentication and authorization using JWT for secure access.
- Optimized database queries, improving application performance and reducing load times.
- Enhanced application performance by implementing efficient state handling and API optimizations.
- Implemented role-based access control (RBAC) for secure and efficient user management.

PROJECTS

JobPortal Web Application

Technology Stack: React.js, Redux, Node.js, Express.js, MongoDB, JWT, Bootstrap, Tailwind css

- Developed a full-stack job portal where users can register, search, and apply for jobs, while recruiters can post and manage job listings..
- Designed and implemented RESTful APIs for job listings and user authentication.
- Integrated middleware in Express.js for input validation and error handling.
- Added pagination and filtering on the backend for efficient and optimized data loading.
- Implemented secure password hashing using bcrypt and token-based authentication using JWT.
- Designed a responsive and user-friendly frontend using React.js and Redux.
- Implemented role-based and permission-based middleware for clean and secure access control.

eCommerce Web Application

Technology Stack: React.js, Redux, Node.js, Express.js, MongoDB, JWT, Bootstrap, Tailwind css

- Developed a full-stack eCommerce platform where users can browse products, add to cart, and place orders seamlessly.
- Managed global application state using Redux Toolkit with Async Thunks, handling asynchronous API calls efficiently.
- Implemented admin panel features with role-based access control for managing products, orders, and users securely.
- Integrated Express.js middleware for input validation and error handling, ensuring smooth backend operations.
